

For Immediate Release

Virox Technologies Inc. is Permanently Named at Sheridan Institute of Technology and Advanced Learning!

In recognition of Virox Technologies Inc.'s ongoing support of the Sheridan Institute of Technology and Advanced Learning, a lecture theatre has been permanently dedicated and named. Virox is committed to the ongoing support of Sheridan Business Students by hosting an annual Virox Future Forum which provides an opportunity for graduating students to become more knowledgeable about forward looking trends in the workplace.

The Sheridan Institute of Technology and Advanced Learning is one of Canada's premier polytechnic institutes and is dedicated to exceptional applied learning and graduate success. They are a leader in providing skills-based educational programming that integrates theory with application, preparing students for careers in visual and performing arts, business, community services and technical fields. Sheridan serves close to 15,000 full-time students annually at its campuses in Oakville and Brampton, Ontario.

About Virox Technologies Inc.

The mission of Virox Technologies is to equip the entire spectrum of global markets that are concerned with infection control with state-of-the-art antimicrobial technology in the war against germs. We believe that there is no longer the need to compromise on efficacy of application, or to trade off either personal safety or environmental integrity.

Accelerated Hydrogen Peroxide (AHP) is a stable cleaning and disinfecting solution with enhanced germicidal activity that is not harmful to those who use it or to the environment. Virox Technologies Inc. has pioneered the broader acceptance of Hydrogen Peroxide based with this patented technology known as Accelerated Hydrogen Peroxide. AHP is a synergistic blend of commonly used, safe ingredients that when combined with low levels of hydrogen peroxide dramatically increase its germicidal potency and cleaning performance. AHP contains only those ingredients listed on the U.S.A. EPA inert listing and the GRAS listing (Generally Regarded As Safe) published by the FDA which contribute to an unsurpassed health, safety and environmental profile.
