CONCORD, Ontario

**MF DISTRIBUTIONS INC.
ORANGE GLO® - Disinfection Control™**

MF Distributions Inc., manufacturer of ORANGE GLO® brand products in Canada, announced today it will be introducing a new product on January 3, 2005 “ORANGE GLO® Disinfection Control™, with patented technology.

ORANGE GLO® - Disinfection Control™ is a Powerful Disinfectant and Sanitizer. With a new patented technology “**Accelerated Hydrogen Peroxide™**” ORANGE GLO® - Disinfection Control allows consumers to Kill Viruses and Bacteria and **99.999%** of Household Germs in **30 Seconds**.

ORANGE GLO® - Disinfection Control™ is based on the same innovative technology that is used in health care facilities nation wide. Now formulated for the household and can be used on hard surfaces in your Kitchens, Bathrooms, appliances, sinks and taps. Best of all you can take along this convenient 473 ml Spray Bottle in your travels, cruise ships, hotels, even to your gym to sanitize equipment before using, etc..

With today’s world changing rapidly, Viruses and Bacteria are able to reach us easier then ever before, ORANGE GLO® - Disinfection Control will help keep your home clean and sanitized.
