PREPARING SHERIDAN BUSINESS STUDENT LEADERS FOR A FUTURE OF CHANGE

The top 10 in-demand jobs of 2010 didn't exist in 2004, and that growth is not over. The World Economic Forum believes that many new and exciting jobs will be required over the next 20 years to avoid a massive increase in global unemployment. To fulfill this need, new attitudes supporting innovation, entrepreneurship, risk taking and encouraging creativity must be fostered. Don't miss this opportunity to hear from successful business people about how to thrive in the business world. Learn how to launch your career, be successful and prosper in a constantly evolving marketplace.

David K. Foot

Outspoken and controversial demographics expert David K. Foot contends that demographics explains two thirds of everything whether the subject is business planning, marketing, human resources, career planning, corporate organization, the stock market, or social and global trends. Change can't be avoided, but it can be prepared for and managed. With an understanding of demographics, a business, an individual or a government has a strong foundation upon which to build.

Foot is best known as the author of the best-selling books *Boom Bust & Echo: How to Profit from the Coming Demographic Shift* and *Boom Bust & Echo: Profiting from the Demographic Shift in the 21st Century*.
